**Declaration of Compliance with EU Regulation 2017/821 on Conflict Minerals**

RINNERT GmbH & Co. KG is committed to complying with the applicable requirements of Regulation (EU) 2017/821 concerning conflict minerals and supports responsible sourcing practices throughout its supply chain.

We take appropriate measures to ensure that we do not knowingly procure raw materials, components, or products containing conflict minerals sourced from non-compliant or conflict-affected sources. At the same time, we expect our suppliers to exercise appropriate due diligence within their own supply chains and to maintain traceable documentation regarding the origin of the materials they supply.

To minimize potential risks, we continuously work to improve the transparency and responsibility of our supply chain. Should we become aware of any indications of non-compliance or irregularities, we will carefully investigate the matter and, where necessary, implement appropriate corrective and risk mitigation measures.

Should you have any questions, please do not hesitate to contact us.

Best regards,

**Eric Rinnert**  
CEO

**Max Rinnert**  
CEO
