

01. July 2026

**RoHS Declaration in accordance with Directive 2011/65/EU
(including Commission Delegated Directive (EU) 2015/863)**

We hereby confirm that our products comply with the requirements of Directive 2011/65/EU (RoHS) as well as Commission Delegated Directive (EU) 2015/863.

To the best of our current knowledge, our products do not contain any substances restricted under Article 4(1) of the RoHS Directive in concentrations exceeding the maximum concentration values specified in Annex II.

Products manufactured from steel, aluminum, or copper alloys may contain lead in concentrations exceeding the general threshold limit. Such applications are covered by the exemptions listed in Annex III of Directive 2011/65/EU, namely exemptions 6(a), 6(b), and 6(c), and are therefore permitted.

To the best of our current knowledge, the additional restricted substances introduced by Commission Delegated Directive (EU) 2015/863, including the phthalates DEHP, BBP, DBP, and DIBP, are not present in our products above the applicable maximum concentration values.

Should you have any questions, please do not hesitate to contact us.

Best regards,

Eric Rinnert
